

What is Freegal?

Freegal music is an online service that you access through the library's own website. It is **FREE, LEGAL downloadable music provided to library patrons**, brought to you by your local library. For the very first time, major label music is available for FREE download for library users with their Library card number.

What music is available?

We're offering the Sony Music Entertainment's digital music catalog which includes over 500,000 songs.

What do I need to download the songs?

Only your library card. No software or interface is necessary.

How many can I download?

You can download 3 songs per week. When downloading please select "Save As" to save to your computer. (If you select "open with" you will not permanently save your song). Your counter is rolled back each Monday so you can start downloading up to 3 more songs then.

Can I keep it?

Yes! The songs are yours to keep. There is no due date.

My library card isn't being accepted. What's up?

There may be blocks on your card. If you have overdue items or excessive fines on your account, you will not be able to download at this time. However, the block may be as simple as "update registration." If your card is blocked you can call a librarian for assistance in getting the block removed.
